SKILLS

Languages and Databases: Python, SQL, MySQL, PL/SQL
Data Visualization: Power BI, MS Excel
Data Analysis & Modeling: Data Analysis, Business Analysis, Data Modeling, Data Manipulation, Pandas, NumPy
Other Skills: Data Reporting, Analytical Skills, Django, Flask, Git

Professional Summary

Highly motivated Python and SQL developer with strong programming fundamentals and a solid understanding of database concepts. Proficient in writing clean, efficient, and maintainable code, with hands-on experience in query optimization and data handling. Quick learner and team player with excellent communication skills, eager to apply technical expertise in a dynamic work environment.

Experience

Software Trainee - BizzPorto Information Services Pvt. Ltd.Pune **Sep 2026 - Present**

- Develop responsive and user-friendly web interfaces.
- Build and maintain frontend components using HTML, CSS, and JavaScript.
- Test and debug web applications to improve functionality and performance

Jr. Software Engineer Intern - Cravita Technologies India Pvt. Ltd.Pune **Oct 25 – March 26**

- Developed backend modules and RESTful APIs using Python, Django, and MySQL.
- Designed database schemas and optimized SQL queries using Django ORM.
- Collaborated with development teams to integrate, test, and debug web applications.

PROJECTS

Fitness Sporting Club: [HTML, CSS, JavaScript] **June 2024**

- Designed and developed a **responsive fitness club website** with key sections including Home, Services, Trainers, and Contact Form.
- Implemented **mobile-friendly layouts** using HTML, CSS, and JavaScript to ensure cross-device compatibility.
- Enhanced user experience by creating a **clean UI design** and smooth navigation structure.
- Strengthened frontend development skills through hands-on implementation of web design principles.

Library Management System: [Python, SQL, MySQL] **Feb 2025**

- Developed a Library Management System using Python and MySQL to efficiently manage book records and user transactions.
- Designed and implemented features for adding, issuing, returning, and tracking book availability.
- Created optimized SQL queries for data storage, retrieval, and management to ensure accuracy and performance.
- Improved record handling efficiency by structuring relational database tables and maintaining data integrity.

Task Management System: [Python, Django, MySQL, HTML, CSS, Bootstrap] **March 2026**

- Developed a basic web-based Task Management System using **Python and Django** with user authentication functionality.
- Implemented **CRUD** operations (Create, Read, Update, Delete) for managing tasks and tracking task status. • Designed and managed **relational database** tables in MySQL using Django ORM for efficient data handling.
- Built a simple, responsive user interface using HTML and CSS for task interaction and management.

CERTIFICATIONS

- Full Stack Python – **Fortune Cloud** Technologies Pvt. Ltd.
- SQL and MySQL Certification **– Udemy**
- Data Analytics and Visualization Job Simulation – **Microsoft**
- **Microsoft Azure** Fundamentals (AZ-900)

EDUCATION

Nutan Maharashtra Institute of Engineering and Technology (NMIET) Talegaon, Pune **Pursuing**
M.C.A., Computer Science
Dayanand College of Commerce, Latur. **June 2024**
B.C.A., Information Technology, CGPA – 8.35
